Ronald McDonald House: Pittsburgh **Make a House a Home**

Sponsoring a space at the Houses provides individuals and groups with the opportunity to help provide caring and practical support to families during an incredibly stressful time.

How your apartment sponsorship makes a difference

Apartments

The Make a House a Home program at Ronald McDonald House creates a safe and healthy environment where families can stay, grow, and pursue their dreams of health and healing. This program ensures that every guest room is more than just a place to sleep, but a place where families find stability, dignity, and comfort during a child's medical treatment.

Each of the House's 74 single-bedroom apartments is thoughtfully designed to meet a family's needs, featuring a kitchenette, individualized thermostats for comfort, and a pull-out couch to accommodate additional loved ones. It becomes a place to rest after long days at the hospital, to share a quiet meal, and to simply be together.

While the cost to provide a family stay is significant, community support ensures that every room remains welcoming, clean, and ready so families can focus on what matters most – their child's health. Each sponsored apartment receives a customized plaque outside the door, a visible reminder to every family who enters that someone in this community believes they should not face this journey alone.

To learn more about the Make a House a Home program at Ronald McDonald House: Pittsburgh Please contact Heather Hibala at: heather@ronaldmcdonaldhousepghmgtn.org or **412-246-2897**.

Thank you for providing comfort to families and keeping them close to each other.
